SOLUTION ARCHITECTURE ACCEL SAATHI · AIRTEL SYNC 2026 · ENTERPRISE TRACK A

Rules decide, GenAI explains: one Voiceflow agent, five playbooks, eleven tested tools

built and running · same agent, channel not on yet · mocked in prototype

CHANNELS

Web chat widget
Demo page hosts the Voiceflow widget; **?ref=** links carry referral codes.

Smart KYC page
Consent screen + GST certificate read by OCR (Tesseract.js) on the phone, never uploaded.

Back-office page
Unclosed leads by score, rep callbacks, rewards after 90 days.

WhatsApp · Voice
Voiceflow channels of the same agent.

VOICEFLOW AGENT · CHAT IN EN / HI / KN AND MORE

Saathi: global prompt + routing

Identity, language, hard rules (never invent a price or a promise), consent per purpose, routing to five playbooks. The LLM asks, explains and translates.

Every price, eligibility, KYC and guarantee decision comes from a function tool

PLAYBOOK 0 · START

GSTIN-first onboarding

- `consent_manager` — 3 purposes, withdrawable
- `onboard_from_gstin` — GSTIN or Udyam → proposal, 0 questions for 73%
- `bill_swap` · `readiness_score`

PLAYBOOK A

Bundle advisor

- `price_bundle` — 25 products, eligibility, one monthly price, the quote's guarantee
- `bill_swap` · `readiness_score`

PLAYBOOK B

Business verification

- `verify_gstin` — checksum, registry status, blocks dead GSTINs
- `verify_udyam` — optional Udyam check

PLAYBOOK C

Callback & lead capture

- `register_lead` — lead score, AUC 0.71
- `reach_tag_lead` — referral, territory rep, Hot handoff
- **Google Sheets** — one row per lead (45 columns)

PLAYBOOK D

Order tracker

- `order_status` — counts down to the quoted guarantee; month one credited if missed
- `downtime_credit` — outage credit by rule

Embedded case data
Catalogue (25) · GST registry (3,534) · Udyam registry (2,723) · lead model · firm activation days

Knowledge base
Bundles & rules (generated from the pricing code) · FAQ · privacy notice · catalogue table

Privacy (DPDP Act)
Lookup only after consent · IDs and phone masked · lead score gets no name or phone

1 Consent → 2 GSTIN / Udyam lookup → 3 Quote + guarantee → 4 KYC → 5 Lead row + rep → 6 Tracker + credits

EXTERNAL SYSTEMS

Mocked now, real in production

GSTIN / Udyam APIs · DigiLocker · Aadhaar e-Sign · UPI Autopay · WhatsApp Business API · CRM / BSS-OSS · Network monitoring · AirFiber coverage

HOW IT IS BUILT AND CHECKED

1 · Generate
Case CSVs → **gen_kit.py** → 11 self-contained JavaScript tools (no imports, one rule source each).

2 · Test
308 automated tests, mutation-tested; browser checks of the KYC and back-office pages.

3 · Deploy
voiceflow_deploy.mjs builds the agent through Voiceflow's API from the same files.
